

WALLIX RECOGNIZED AMONG GLOBAL PAM LEADERS BY THE ANALYST FIRM QUADRANT KNOWLEDGE SOLUTIONS

- **WALLIX** makes a direct entry as a global leader in Privileged Access Management (PAM) SPARK Matrix™, the annual market research study conducted by the analyst firm Quadrant Knowledge Solutions.
- Quadrant Knowledge Solutions recognizes the robustness of WALLIX PAM4ALL solution and its ability to protect organizations with state-of-the-art access and identity security features and technologies.
- Quadrant Knowledge Solutions Highlights Universal Tunneling to Protect Access and Control Sessions of Industrial Equipment in WALLIX PAM4OT from [OT.security by WALLIX](#).

Paris, October 27, 2022 – **WALLIX**, (Euronext ALLIX) a European cybersecurity software provider and expert in Access and Identity Solutions, has made a direct entry as a global leader into the Privileged Access Management (PAM) SPARK Matrix™, the market research study conducted annually by the analyst firm Quadrant Knowledge Solutions. This recognition, which follows that of [Frost & Sullivan](#) and then [Gartner](#), is the result of the effectiveness of WALLIX's development strategy - "PAM for all" - with, in particular, the claim and realization of its expertise in the industrial sector through the launch of [OT.security by WALLIX](#) brand.

The SPARK Matrix™ is a detailed analysis of the global PAM market (short- and long-term growth opportunities, emerging technology trends, market directions and future prospects). The study provides the overall market adoption rate and forecast. It enables vendors to better understand the existing market, explore their growth strategies, and users to assess vendor capabilities, competitive differentiation, and market position.

WALLIX PAM4ALL: a state-of-the-art solution...

To meet the new challenges of digital technology (widespread remote work, massive adoption of cloud services, development of Smart Cities, automation in industry and financial services, connected objects, etc.), WALLIX has developed a vision, "PAM for all", enabling it to offer its customers the promise of a secure digital transformation for all. To achieve this vision, WALLIX now offers WALLIX PAM4ALL, a unified solution that goes beyond securing privileged accounts and secures, according to the principle of least privilege, all types of access, human or machine.

Quadrant Knowledge Solutions recognizes the robustness of WALLIX PAM4ALL solution and ability to protect organizations from internal and external cyber threats and data breaches with state-of-the-art access and identity security features and technologies:

- Remote access management
- Session management
- Password management (human, machine or application)
- Privilege elevation and delegation management (PEDM)
- Session management for industrial equipment (Universal Tunneling)

... for all sectors, with a strong expertise in industry

Quadrant Knowledge Solutions highlights the Universal Tunneling function that protects access and controls sessions of industrial equipment found in the WALLIX PAM4OT offer of the [OT.security by WALLIX](#) brand.

WALLIX PAM4OT is a package for industrial companies, in which WALLIX PAM4ALL is configured for industrial environments and can be adapted to all use cases. In addition, the package includes a simplified price list to guarantee all the functionalities required to secure access and digital identities in industry, and training for WALLIX's distribution network partners.

"WALLIX is able to meet all of the cybersecurity needs of manufacturers with WALLIX PAM4ALL comprehensive functionality and scalable technologies, compelling customer references, strong roadmap, strategic vision, and cloud-native platform," said **Hardik Jain, analyst at Quadrant Knowledge Solutions**.

"The recognition from Quadrant Knowledge Solutions, in addition to Frost & Sullivan and Gartner, proves the relevance and effectiveness of our strategy from both an organizational and technology perspective. It also reflects our role as a trusted global partner to all sectors, including the industrial sector. Our unique approach combines best-in-class software solutions with comprehensive functionality designed for specific organizational needs and an unmatched customer experience," said **Edwige Brossard, Product and Marketing Director at WALLIX**.

ABOUT WALLIX

A software company providing cybersecurity solutions, WALLIX is the European specialist in digital Identity and Access Security Solutions. WALLIX's technologies enable companies to respond to today's data protection challenges. They guarantee detection of and resilience to cyberattacks, which enables business continuity. They also ensure compliance with regulatory requirements regarding access to IT infrastructures and critical data. WALLIX has a strong distribution network of more than 300 resellers and integrators worldwide. Listed on the Euronext (ALLIX), WALLIX supports more than 2000 organizations in securing their digital transformation.

OT Security by WALLIX is a brand dedicated to the security of digital access and identities in industrial environments.

WALLIX affirms its digital responsibility and is committed to contributing to the construction of a trusted European digital space, guaranteeing the security and confidentiality of data for organizations as well as for individuals concerned about the protection of their digital identity and privacy. Digital technology, whether for professional or personal use, must be ethical and responsible in order to pursue a secure societal digital transformation that respects individual freedoms.
